PROJECTS OVERVIEW

The Company was, until June 30, 2016, an exploration stage company engaged in the acquisition and exploration of mineral property interests in Canada and China. The Company was primarily focused on the advancement of the Tagish Lake Gold Property ("TLG") and the RZY Project ("RZY"), as detailed below. The Company intends to treat the TLG property and RZY project as investments in its investment portfolio in accordance with the Company's investment objectives and strategies.

1. Tagish Lake Gold Property

In December 2010, the Company completed the acquisition of 100% of the Tagish Lake Gold Property through the acquisition of Tagish Lake Gold Corp. TLG is a wholly owned direct subsidiary of the Company. The Tagish Lake Gold Property is located 80 kilometres by road south of Whitehorse, Yukon, Canada, and consists of 1,510 mineral claims covering approximately 254 square kilometres. Within the property, three geographically distinct projects have been identified: the Skukum Creek, Goddell, and Mt. Skukum projects.

On September 14, 2012, the Company filed an updated National Instrument 43-101 ("NI 43-101") report for the Skukum Creek, Goddell and Mt. Skukum projects. The Company does not intend to conduct any further exploration on the Tagish Lake Gold Property and will examine strategic opportunities for the Tagish Lake Gold Property in accordance with its investment strategies and objectives.

Exploration Progress

Since the acquisition of the Tagish Lake Gold Property in December 2010, the Company had one exploration season that commenced on May 18, 2011 and ended on October 9, 2011. The property was on care and maintenance status with a rotating crew of 2 men on site at all times between the end of exploration work and November 2014. Since November 2014 the camp has been sealed and unmanned.

2. RZY Silver-Lead-Zinc Project

On March 28, 2013, the Company acquired 80% of Fortress Mining Inc.'s ("FMI") interest in the RZY Silver-Lead-Zinc Project through the purchase of all the outstanding common shares of FMI from Silvercorp Metals Inc., a related party of the Company, for cash consideration of US\$3.5 million. The RZY Project is held through FMI's 82% owned subsidiary, Qinghai Found Mining Co. Ltd. ("QFM"). The RZY Project exploration permit has been transferred from Qinghai Geological Survey Institute ("QGS"), the minority shareholder of QFM, to QFM as of September 3, 2013.

The RZY Project, located in Qinghai, China is an early stage silver-lead-zinc exploration project, situated on a high plateau with an average elevation of 5,000 metres above sea level. The RZY project is located approximately 296 kilometres via paved and gravel roads from the capital city of Yushu, Tibetan Autonomous Prefecture, or 1157 kilometres via paved highway from Qinghai Province's capital city of Xining. Regular commercial flights are available from Xining to Yushu.

Exploration Progress

The most recent drill program at the RZY Project was completed on October 20, 2013. In 2016, the Qinghai Provincial Government issued a moratorium which temporarily suspends exploration for twenty six mining projects including the Company's RZY project. Despite of the moratorium, the Company successfully renewed the exploration permit with Qinghai Provincial Government and will apply to renew the exploration permit upon its expiration in November 2016.

FINANCIAL RESULTS

Net income attributable to equity holders of the Company for three months ended September 30, 2016 was \$3,582,268 or \$0.05 per share compared to net income of \$1,386,059 or \$0.02 per share for three months ended September 30, 2015.

In the current period, the Company's financial results were mainly impacted by the following: (i) new business strategy to focus on investments brought in income from investments of \$3,682,428, a 4,251% increase compared to \$84,626 in the prior year; (ii) foreign exchange gain of \$149,066, a 91% decrease compared to foreign exchange gain of \$1,576,158 in the prior year; and, (iii) operating expenses of \$253,360, a 14% decrease compared to \$294,321 in the prior year.

Income from investments for the three months ended September 30, 2016 was \$3,682,428, an increase of 4,251%, compared to \$84,626 for three months ended September 30, 2015. This significant increase was a direct result of the Company's business change from exploration and development on mineral properties to investing in publicly-traded or privately-held corporations and other marketable instruments such as bonds. Within the investments income, \$3,220,712 was unrealized gain on the Company's investment in common shares and warrants and \$458,766 was from fair value change and interest earned on bonds.

Operating expenses for the three months ended September 30, 2016 was \$253,360, a decrease of 14%, compared to \$294,321 for the three months ended September 30, 2015. Significant items included in operating expenses are as follows:

Management's Discussion and Analysis

For the three months ended September 30, 2016 and 2015

(Expressed in Canadian dollars, unless otherwise stated)

- (i) **Audit and accounting fees** for the three months ended September 30, 2016 was \$13,480 compared to \$nil in the prior year period. The increase of the accounting fees in the current period is due to the timing difference of the audit service performed;
- (ii) **Consulting fees** for the three months ended September 30, 2016 was \$nil compared to \$2,090 for the three months ended September 30, 2015. No consulting services were needed since the mines were put on care and maintenance;
- (iii) **Filing and listing fees** for the three months ended September 30, 2016 was \$8,841, a decrease of 51%, compared to \$17,964 for the three months ended September 30, 2015. The filing fees include the base fee and variable fee based on the market capitalization paid to TSX. The fees decreased in the current period due to the timing difference of annual financial statement filing payments;
- (iv) **Legal and professional fees** for the three months ended September 30, 2016 was \$6,354 compared to \$933 in the same prior year period. The increase was due to additional legal services incurred in the current period as the Company reached an agreement with Paul Whelan Mining Contractors ("Whelan Mining") to settle a legal dispute with an all-inclusive sum of \$83,000;
- (v) **Salaries and benefits expense** for the three months ended September 30, 2016 was \$112,291 compared to \$113,065 in the prior year period;
- (vi) **Office and administration expense** for the three months ended September 30, 2016 was \$52,375 compared to \$63,309 in the prior year period. The decrease in office and administration expenses results from the general costs saving initiatives;
- (vii) **Rent expense** for the three months ended September 30, 2016 was \$19,539, a decrease of 25%, compared to \$26,033 for three months ended September 30, 2015. Rental expense is based on a Service and Cost Allocation Agreement between the Company and Silvercorp Metals Inc. The decrease of rent in the current period is due to the refund received from Silvercorp as a result of subleasing rent income;
- (viii) **Share-based compensation** for the three months ended September 30, 2016 was \$22,912 compared to \$45,744 in the same prior year period; and
- (ix) **Travel and promotion expense** for the three months ended September 30, 2016 was \$3,134, a decrease of 78%, compared to \$14,222 in the same prior year period. There was less travel to the mine sites and minimal expenditures on investor relations.

Foreign exchange gain for the three months ended September 30, 2016 was \$149,066, a decrease of 91%, compared to \$1,576,158 in the same prior year period. The Company holds a large portion of cash and cash equivalents and bonds in US dollars while the Company's functional currency is Canadian dollar, the fluctuation in exchange rates between the US dollar and Canadian dollar will impact the financial results

of the Company. During the three months ended September 30, 2016, the US dollar appreciated by 0.8% against Canadian dollar (from 1.3009 to 1.3117) while in the same prior year period the US dollar appreciated by 7.4% against Canadian dollar (from 1.2474 to 1.3394). The slowdown of US dollar appreciation against Canadian dollar in the relative periods was the reason of the reduced amount of foreign exchange gains.

Gain on disposal of plant and equipment for the three months ended September 30, 2016 was \$nil compared to \$21,255 in the same prior year period. The Company sold major on site equipment after putting the mines on care and maintenance in order to realize the value of the assets before depreciation and to reduce the risk of potential damage and theft.

investments.

Foreign exchange effect was positive \$3,330 and positive \$1,620,374 for the three months ended September 30, 2016 and 2015, respectively. Foreign exchange effect is mainly due to the period end translation of US and Chinese denominated funds that the Company holds.

2. Liquidity and Capital Resources

As at September 30, 2016, the Company had working capital of \$19,020,192 (June 30, 2016 – 21,816,903), comprised of cash and cash equivalents of \$2,010,248 (June 30, 2016 - \$5,267,066), bonds of \$17,684,145 (June 30, 2016 - \$17,201,630) and other current assets of \$130,910 (June 30, 2015 - \$138,547) offset by current liabilities of \$805,111 (June 30, 2016 - \$790,340). Management believes that the Company has sufficient funds to support its normal investing and operating requirement on an ongoing basis.

The Company does not have unlimited resources and its future capital requirements will depend on many factors, including, among others, cash flow from interest, dividends, and realized gains on investments. To the extent that its existing resources and the funds generated by future income are insufficient to fund the Company's operations, the Company may need to raise additional funds through public or private debt or equity financing. If additional funds are raised through the issuance of equity securities, the percentage ownership of current shareholders will be reduced and such equity securities may have rights, preferences or privileges senior to those of the holders of the Company's common stock. No assurance can be given that additional financing will be available or that, if available, can be obtained on terms favourable to the Company and its shareholders. If adequate funds are not available, the Company may be required to delay, limit or eliminate some or all of its proposed operations. The Company believes it has sufficient capital to meet its cash needs for the next 12 months, including the costs of compliance with continuing reporting requirements.

FINANCIAL INSTRUMENTS

The Company manages its exposure to financial risks, including liquidity risk, foreign exchange rate risk, interest rate risk, credit risk and equity price risk in accordance with its risk management framework. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis.

(a) Fair Value

The Company classifies its fair value measurements within a fair value hierarchy, which reflects the significance of inputs used in making the measurements as defined in IFRS 7 – Financial Instruments: Disclosures ("IFRS 7").

Level 1 – Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs which are supported by little or no market activity.

Management's Discussion and Analysis

For the three months ended September 30, 2016 and 2015

(Expressed in Canadian dollars, unless otherwise stated)

The following table sets forth the Company's financial assets that are measured at fair value on a recurring basis by level within the fair value hierarchy at September 30, 2016 and June 30, 2016 that are not otherwise disclosed. As required by IFRS 7, financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Common shares ⁽¹⁾	3,375,120	-	325,225	3,700,345

⁽¹⁾ Investment in Cozystay is a Level 3 financial instrument

Fair value of other financial instruments excluded from the table above approximates their carrying amount as of September 30, 2016 and June 30, 2016, respectively.

There were no transfers into or out of level 3 during the periods.

(b) Liquidity Risk

The Company has a history of losses and no operating revenues from its operations. Liquidity risk is the risk that the Company will not be able to meet its short term business requirements. As at September 30, 2016, the Company had a working capital position of \$19,020,192 and sufficient cash resources to meet the Company's short-term financial liabilities and its planned investment activities as well as exploration and development expenditures for the foreseeable future, for, but not limited to, the next 12 months.

In the normal course of business, the Company enters into contracts that give rise to commitments for future minimum payments. The following summarizes the remaining contractual maturities of the Company's financial liabilities:

	September 30, 2016		June 30, 2016
	Due within a year		
Trade and other payables	\$	752,717	\$ 701,228
Due to related parties		52,394	6,112
	\$	805,111	\$ 707,340

(c) Foreign Exchange Risk

NEW PACIFIC HOLDINGS CORP.

Management's Discussion and Analysis

For the three months ended September 30, 2016 and 2015

(Expressed in Canadian dollars, unless otherwise stated)

The Company is exposed to foreign exchange risk when it undertakes transactions and holds assets and liabilities denominated in foreign currencies other than its functional currencies. The Company currently does not engage in foreign exchange currency hedging. The Company's exposure to foreign exchange risk is summarized as follows:

The amounts are expressed in CAD equivalents	September 30, 2016		June 30, 2016
United States dollars	\$	20,582,430	\$ 22,505,852
Chinese RMB		226,307	243,484
Financial assets in foreign currency	\$	20,808,737	\$ 22,749,336
Chinese RMB	\$	81,353	\$ 82,494
Financial liabilities in foreign currency	\$	81,353	\$ 82,494

As at September 30, 2016, with other variables unchanged, a 1% strengthening (weakening) of the U.S. Dollar against the CAD would have increased (decreased) net income by approximately \$206,000.

As at September 30, 2016, with other variables unchanged, a 1% strengthening (weakening) of the Chinese RMB against the CAD would have increased (decreased) net income by approximately \$1,400.

(d) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company's cash and cash equivalents primarily include highly liquid investments that earn interest at market rates that are fixed to maturity. The Company also holds a portion of cash and cash equivalents in bank accounts that earn variable interest rates. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have significant impact on the fair values of the financial instruments as of September 30, 2016. The Company also owns bonds that earn coupon payments at fixed rates to maturity. Fluctuation in market interest rates usually will have an impact on bond's fair value. An increase in market interest rates will generally reduce bond's fair value while a decrease in market interest rates will generally increase it. The Company monitors market interest rate fluctuations closely and adjusts the investment portfolio accordingly.

(e) Credit Risk

Credit risk is the risk of financial loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk primarily associated with cash and cash equivalents, bonds, and receivables. The carrying amount of financial assets included on the statement of financial position represents the maximum credit exposure.

The Company has deposits of cash equivalents that meet minimum requirements for quality and liquidity as stipulated by the Company's Board of Directors. Management believes the risk of loss to be remote, as majority of its cash and cash equivalents are held with major financial institutions. Bonds by nature are exposed to more credit risk than cash. The Company manages its risk associated with bonds by only investing in large globally recognized corporations from diversified industries. As at September 30, 2016, the Company has a receivables balance of \$110,885 (June 30, 2016 - \$115,146).

(f) Equity Price Risk

The Company holds certain marketable securities that will fluctuate in value as a result of trading on global financial markets. As the Company's marketable securities holding are mainly in mining companies, the value will also fluctuate based on commodity prices. Based upon the Company's portfolio at September 30, 2016, a 10% increase (decrease) in the market price of the securities held, ignoring any foreign exchange effects would have resulted in an increase (decrease) to net income of approximately \$870,000.

RELATED PARTY TRANSACTIONS

Related party transactions not disclosed elsewhere in the consolidated financial statements are as follows:

Transactions with related parties	Three month ended September 30,	
	2016	2015
Silvercorp Metals Inc. (a)	\$ 67,864	\$ 99,791

Related party transactions are entered into based on normal market conditions at the amounts agreed on by the parties. As at September 30, 2016, the balances with related parties, which are unsecured, non-interest bearing, and due on demand, are as follows:

Due to related parties	September 30, 2016	June 30, 2016
Silvercorp Metals Inc. (a)	\$ 52,394	\$ 6,112

(a) Silvercorp has two common directors and officers with the Company and shares office space and provides various general and administrative services to the Company. During the three months ended September 30, 2016, the Company recorded total expenses of \$67,864 (three months ended September 30, 2015 - \$99,791) for services rendered and expenses incurred by Silvercorp on behalf of the Company.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet financial arrangements.

PROPOSED TRANSACTIONS

There are no proposed acquisitions or disposals of assets or business, other than those in the ordinary course of business, approved by the board of directors as at the date of this MD&A.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of the consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the amounts reported on the consolidated financial statements. These critical accounting estimates represent management estimates that are uncertain and any changes in these estimates could materially impact the Company's consolidated financial statements. Management continuously reviews its estimates and assumptions using the most current information available. The Company's critical accounting policies and estimates are described in Note 2 of the accompanied unaudited consolidated financial statements for the three months ended September 30, 2016.

Management's Discussion and Analysis

For the three months ended September 30, 2016 and 2015

(Expressed in Canadian dollars, unless otherwise stated)

Management has identified: (a) Impairment of mineral property interests and (b) Share-based payments as the critical estimates for the following discussion:

(a) *Impairment of mineral property interests*

Where an indicator of impairment exists, a formal estimate of the recoverable amount is made, which is considered to be the higher of the fair value less costs to sell and value in use. These assessments require the use of estimates and assumptions such as long-term commodity prices (considering current and historical prices, price trends and related factors), discount rates, operating costs, future capital requirements, closure and rehabilitation costs, exploration potential, reserves and in-situ value of the property. These estimates and assumptions are subject to risk and uncertainty. Therefore, there is a possibility that changes in circumstances will impact these projections, which may impact the recoverable amount of assets and/or CGUs. Fair value or value in use is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties.

(b) *Share-based payments*

The Company accounts for stock options granted to employees, officers, directors, and consultants using the fair value method. The fair value of options granted to employees, officers, and directors is determined using the Black-Scholes option pricing model with market related inputs as of the date of grant. The fair value of stock options granted to consultants is measured at the fair value of the services delivered. Market related inputs using the Black-Scholes option pricing model are subject to estimation and includes risk free interest rate, expected life of option, expected volatility, expected dividend yield, and estimated forfeiture rate.

FUTURE ACCOUNTING CHANGES

IFRS 15 – *Revenue from contracts with customers*, the standard on revenue from contracts with customers was issued in September 2015 and may be effective for annual reporting periods beginning on or after January 1, 2018 for public entities with early adoption permitted. Entities have the option of using either a full retrospective or a modified retrospective approach to adopt the guidance. The Company is assessing the impact of this standard.

IAS 7 - *Statement of Cash Flows* has been revised to incorporate amendments issued by the International Accounting Standards Board ("IASB") in January 2016. The amendments require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities. The amendments are effective for annual periods beginning on or after January 1, 2017 with early adoption permitted. The Company is assessing the impact of this standard.

IAS 12 - *Income Taxes* has been revised to incorporate amendments issued by the IASB in January 2016. The amendments clarify how to account for deferred tax assets related to debt instruments measured at fair value. The amendments are effective for annual periods beginning on or after January 1, 2017 with early adoption permitted. The Company is assessing the impact of this standard.

IFRS 16 - *Leases* was issued by the IASB and will replace Leases ("IAS 17"). IFRS 16 requires most leases to be reported on a company's balance sheet as assets and liabilities. IFRS 16 is effective for annual periods beginning on or after January 1, 2019 with early application permitted for companies that also apply IFRS 15 Revenue from Contracts with Customers. The Company is currently assessing the impact of this new

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

Management is responsible for the design and maintenance of disclosure controls and procedures. Disclosure controls and procedures are designed to provide reasonable assurance that relevant information is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure. Current disclosure controls include meetings with the Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO") and members of the Board of Directors and Audit Committee through emails, telephone conferences and informal meetings to review public disclosure. All public disclosures are reviewed by certain members of senior management and of the Board of Directors and Audit Committee. The Board of Directors has delegated the duties to the Chief Executive Officer whom is primarily responsible for financial and disclosure controls.

Based on current securities legislation in Canada, the CEO and the CFO of the Company evaluated the design and effectiveness of the Company's disclosure controls and procedures as of September 30, 2016 and concluded that such disclosure controls and procedures were operating effectively at that date.

Management is responsible for designing, establishing and maintaining a system of internal controls over

financial reporting to provide reasonable assurance that the financial information prepared by the Company for external purposes is reliable and has been recorded, processed and reported in an accurate and timely manner in accordance with IFRS.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities. The Audit Committee fulfills its role of ensuring the integrity of the reporting information through its review of the interim and annual financial statements.

There are inherent limitations in the effectiveness of internal controls over financial reporting, including the possibility that misstatements may not be prevented or detected. Accordingly, even effective internal controls over financial reporting can provide only reasonable assurance with respect to financial statement preparation. Furthermore, the effectiveness of internal controls can change with circumstances.

The CEO and the CFO evaluated the design and effectiveness of internal controls over financial reporting based on the framework in Internal Control – Integrated Framework issued by the Committee Sponsoring Organizations of the Treadway Commission ("COSO") as at September 30, 2016. Based on this evaluation, as at September 30, 2016, the Company believes that its internal controls over financial reporting were designed and operating effectively to provide reasonable, but not absolute, assurance that the objectives of the control system are met.

The Company continues to review and assess its internal controls over financial reporting. There were no significant changes made to internal controls over financial reporting during the three months ended September 30, 2016.
