1. CORPORATE INFORMATION

New Pacific Metals Corp. along with its subsidiaries (collectively, the "Company" or "New Pacific") is a Canadian mining issuer engaged in exploring and developing mineral properties in Bolivia. The Company is in the stage of exploring and advancing the development of its mineral properties and has not yet determined if they contain economically recoverable mineral reserves. The underlying value and the recoverability of the amounts shown for mineral property interests are entirely dependent upon the existence of recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the mineral properties, and future profitable production or proceeds from the disposition of the mineral property interests.

The Company is publicly listed on the Toronto Stock Exchange ("TSX") under the symbol "NUAG" and on the NYSE American stock exchange ("NYSE-A") under the symbol "NEWP". The head office, registered address and records office of the Company are located at 1066 Hastings Street, Suite 1750, Vancouver, British Columbia, Canada, V6E 3X1.

2. MATERIAL ACCOUNTING POLICY INFORMATION

(a) Statement of Compliance and Basis of Preparation

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended June 30, 2023. These unaudited condensed consolidated interim financial statements follow the same accounting policies, estimates and judgements set out in Note 2 to the audited consolidated financial statements for the year ended June 30, 2023, except as set out in Note 2(c) below.

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis.

The unaudited condensed consolidated interim financial statements of the Company as at and for the three and six months ended December 31, 2023 were approved and authorized for issuance in accordance with a resolution of the Board of Directors (the "Board") dated on February 12, 2024.

(b) Basis of Consolidation

These unaudited condensed consolidated interim financial statements include the accounts of the Company and its wholly or partially owned subsidiaries.

Subsidiaries are consolidated from the date on which the Company obtains control up to the date of the disposition of control. Control is achieved when the Company has power over the subsidiary, is exposed or has rights to variable returns from its involvement with the subsidiary; and has the ability to use its power to affect its returns. For non-wholly-owned subsidiaries over which the Company has control, the net assets attributable to outside equity shareholders are presented as "non-controlling interests" in the equity section of the consolidated statements of financial position. Net income or loss for the period that is attributable to the non-controlling interests is calculated based on the ownership of the non-controlling interest shareholders in the subsidiary.

Notes to Unaudited Condensed Consolidated Interim Financial Statements for the three and six months ended December 31, 2023 and 2022

(Expressed in US dollars)

Balances, transactions, income and expenses between the Company and its subsidiaries are eliminated on consolidation.

Details of the Company's significant subsidiaries which are consolidated are as follows:

(c) Changes in Accounting Policies

The accounting policies applied in the preparation of these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the year ended June 30, 2023 with the exception of the mandatory adoption of certain amendments noted below:

i. Amendments to IAS 1 - Presentation of Financial Statements and IFRS Practice Statement 2 - Making Materiality Judgments - Disclosure of Accounting Policies

The amendments change the requirements in IAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term "significant accounting policies" with "material accounting policy information." Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The supporting paragraphs in IAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. The IASB has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in IFRS Practice Statement 2.

The amendments were applied effective July 1, 2023 and did not have a material impact on the Company's unaudited condensed consolidated interim financial statements.

Notes to Unaudited Condensed Consolidated Interim Financial Statements for the three and six months ended December 31, 2023 and 2022

(Expressed in US dollars)

ii. Amendments to IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors— Definition of Accounting Estimates

The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty." The definition of a change in accounting estimates was deleted. However, the IASB retained the concept of changes in accounting estimates in the Standard with the following clarifications:

- A change in accounting estimate that results from new information or new developments is not the correction of an error; and
- The effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.

The amendments were applied effective July 1, 2023 and did not have a material impact on the Company's unaudited condensed consolidated interim financial statements.

3. OTHER TAX RECEIVABLE

Other tax receivable is composed of value-added tax ("VAT") imposed by the Bolivian government. The Company had VAT outputs through its exploration costs and general expenses incurred in Bolivia. These VAT outputs are deductible against future VAT inputs that will be generated through sales.

4. INCOME FROM INVESTMENTS

Income from investments consist of:

(a) Silver Sand Project

On July 20, 2017, the Company acquired the Silver Sand Project. The Project is located in the Colavi District of the Potosí Department, in Southwestern Bolivia, 33 kilometres ("km") northeast of Potosí City, the department capital. The project covers an area of approximately 5.42 km² at an elevation of 4,072 metres ("m") above sea level.

For the three and six months ended December 31, 2023, total expenditures of \$413,362 and \$1,379,261, respectively (three and six months ended December 31, 2022 - \$1,700,593 and \$4,197,529, respectively) were capitalized under the project.

(b) Carangas Project

In April 2021, the Company signed an agreement with a private Bolivian company to acquire a 98% interest in the Carangas Project. The project is located approximately 180 km southwest of the city of Oruro and within 50 km from Bolivia's border with Chile. The private Bolivian company is 100% owned by Bolivian nationals and holds title to the three exploration licenses that cover an area of 40.75 km².

Under the agreement, the Company is required to cover 100% of the future expenditures on exploration, mining, development, and production activities for the project.

For the three and six months ended December 31, 2023, total expenditures of \$321,877 and \$936,734, respectively (three and six months ended December 31, 2022 - \$2,871,725 and \$5,848,633, respectively) were capitalized under the project.

As at December 31, 2023 and June 30, 2023, the non-controlling interest in the Company's subsidiary Qinghai Found was 18%.

10. FINANCIAL INSTRUMENTS

The Company manages its exposure to financial risks, including liquidity risk, foreign exchange rate risk, interest rate risk, credit risk, and equity price risk in accordance with its risk management framework. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis.

(a) Fair Value

The Company classifies its fair value measurements within a fair value hierarchy, which reflects the significance of inputs used in making the measurements as defined in IFRS 13 – Fair Value Measurement ("IFRS 13").

Level 1 – Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs which are supported by little or no market activity.

The following table sets forth the Company's financial assets that are measured at fair value on a recurring basis by level within the fair value hierarchy as at December 31, 2023 and June 30, 2023 that are not otherwise disclosed. As required by IFRS 13, financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

There were no transfers into or out of Level 1, 2, or 3 during the three and six months ended December 31, 2023.

(b) Liquidity Risk

Short-term investments

Equity investments

The Company has a history of losses and no operating revenues from its operations. Liquidity risk is the risk that the Company will not be able to meet its short term business requirements. As at December 31, 2023, the Company had a working capital position of \$25,700,032 and sufficient cash resources to meet the Company's short-term financial liabilities and its planned exploration and development expenditures on various projects in Bolivia for, but not limited to, the next 12 months.

In the normal course of business, the Company enters into contracts that give rise to commitments for future minimum payments. The following summarizes the remaining contractual maturities of the Company's financial liabilities:

	December 3	June 30, 2023

(c) Foreign Exchange Risk

The Company is exposed to foreign exchange risk when it undertakes transactions and holds assets and liabilities denominated in foreign currencies other than its functional currencies. The functional currency of the head office, Canadian subsidiaries and all intermediate holding companies is CAD. The functional currency of all Bolivian subsidiaries is USD. The functional currency of the Chinese subsidiary is RMB. The Company currently does not engage in foreign exchange currency hedging. The Company's exposure to foreign exchange risk that could affect net income is summarized as follows:

Financial assets denominated in foreign currencies other than			
relevant functional currency		ember 31, 2023	June 30, 2023
United States dollars	\$	346,868	\$ 320,994
Bolivianos		1,038,268	869,869
Total	\$	1,385,136	\$ 1,190,863
Financial liabilities denominated in foreign currencies other than			
relevant functional currency			
United States dollars	\$	73,995	\$ 73,970
Bolivianos		484,179	1,543,889

As at December 31, 2023, with other variables unchanged, a 1% strengthening (weakening) of the USD against the CAD would have increased (decreased) net income by approximately \$2,700.

558,174

As at December 31, 2023, with other variables unchanged, a 1% strengthening (weakening) of the Bolivianos against the USD would have increased (decreased) net income by approximately \$5,500.

(d) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company holds a portion of cash in bank accounts that earn variable interest rates. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have significant impact on the fair values of the financial instruments as of December 31, 2023. The Company, from time to time, also owns cashable guaranteed investment certificates ("GICs") and bonds that earn interest payments at fixed rates to maturity. Fluctuation in market interest rates usually will have an impact on bond's fair value. An increase in market interest rates will generally reduce bond's fair value while a decrease in market interest rates will generally increase it. The Company monitors market interest rate fluctuations closely and adjusts the investment portfolio accordingly.

(e) Credit Risk

Credit risk is the risk of financial loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk is primarily associated with cash and cash equivalents, bonds, and receivables. The carrying amount of financial assets included on the statement of financial position represents the maximum credit exposure.

The Company has deposits of cash and cash equivalent that meet minimum requirements for quality and liquidity as stipulated by the Board. Management believes the risk of loss to be remote, as the majority of

1,617,859

Notes to Unaudited Condensed Consolidated Interim Financial Statements for the three and six months ended December 31, 2023 and 2022

(Expressed in US dollars)

its cash and cash equivalent is held with major financial institutions. Bonds by nature are exposed to more credit risk than cash and cash equivalent. The Company manages its risk associated with bonds by only investing in large globally recognized corporations from diversified industries. As at December 31, 2023, the Company had a receivables balance of \$336,158 (June 30, 2023 - \$421,860). There were no material amounts in receivables which were past due on December 31, 2023 (June 30, 2023 - \$nil).

(f) Equity Price Risk

The Company holds certain marketable securities that will fluctuate in value as a result of trading on global financial markets. Based upon the Company's portfolio at December 31, 2023, a 10% increase (decrease) in the market price of the securities held, ignoring any foreign exchange effects would have resulted in an increase (decrease) to net income of approximately \$28,000.

11. CAPITAL MANAGEMENT

The objectives of the capital management policy are to safeguard the Company's ability to support exploration and operating requirements on an ongoing basis, continue the investment in high quality assets along with safeguarding the value of its mineral properties, and support any expansionary plans.

The capital of the Company consists of the items included in equity less cash, cash equivalent and short term investments. Risk and capital management are primarily the responsibility of the Company's corporate finance function and is monitored by the Board. The Company manages the capital structure and makes adjustments depending on economic conditions. Significant risks are monitored and actions are taken, when necessary, according to the Company's approved policies.

12. SEGMENTED INFORMATION

As at and for the six months ended December 31, 2023, the Company operates in four (as at and for the six months ended December 31, 2022 – four) reportable operating segments, one being the corporate segment; the other three being the exploration and development segments based on mineral properties in Bolivia. These reportable segments are components of the Company where separate financial information is available that is evaluated regularly by the Company's Chief Executive Officer, the chief operating decision maker ("CODM").
